

## Our Lady of the Rosary of Fátima. Queen of Peace and of the World

### Centennial Crown, the Crown of the New Millennium

The Crown of the new millennium is a reinterpretation of the Crown present daily on the Image of the chapel of the apparitions at Fátima.

Like the original, this work created by Leitão & Irmão was inspired by the appearances and by the message of Our Lady at Fátima during 1917.

1- The orb surmounted by the cross is the universal symbol in the Christian world of Reigning Royalty. Our Lady is the Queen.

2- The Cross is surrounded by four large rose petals symbolizing the Mother who swathes the child in her love. A rosebud blooming in the centre of the Cross evokes the life that renews itself in sacrifice.

3- The eight rods that connect the orb to the base of the crown are supported by eight Roses in bloom. The stems are decorated with augmented petals evoking the interior and the detail.

The closed Crown symbolises the union.

The central theme, Roses, evokes **Our Lady of the Rosary of Fátima.**
